**CSI ROCHESTER CHAPTER ANNOUNCES THE WINNERS OF THE  
2010 CSI ANNUAL PROJECT AWARDS**

**ROCHESTER, NY** – The Construction Specifications Institute (CSI), Rochester Chapter, honored the winners of the 2010 Project Awards, at their annual dinner, Friday, May 21st at Oak Hill Country Club.

Each year, Architecture and Engineering firms throughout the Rochester area submit their recently completed projects for recognition for outstanding construction documents. The goal of these awards is to highlight the role of how clear, well prepared specifications and drawings can positively influence the process, quality and successful outcome of a project. The awards program is unique because it provides a platform for the A/E/C industry to showcase new projects and accomplishments in well prepared specifications.

M/E Engineering, PC received the "Project of the Year" award for their outstanding project documents on the Rochester Institute of Technology's East Side and West Side Heating and Cooling Plants. "This is the first time that I can remember that an Engineering firm has taken top honors", said Stuart Axelrod, President of the CSI Rochester Chapter, "This is a great example of how CSI is inclusive of the entire construction industry."

Canandaigua National Bank and Trust, Alexander/Park Branch, designed by Mossien Associates Architects, PC, and ESL Corporate Headquarters on Chestnut Street, designed by LaBella Associates, PC, tied for the award of "Honorable Mention".

### **About CSI**

CSI is a national association dedicated to creating standards and formats to improve construction documents and project delivery. The organization is unique in the industry in that its members are a cross-section of specifiers, architects, engineers, contractors and building materials suppliers. The organization has 146 chapters and more than 15,000 members. Monthly Chapter meetings allow members the opportunity to communicate openly with their counterparts and exchange information for successful project management. CSI is renowned in the industry for its rigorous certification programs for professionals seeking to improve their knowledge of accurate and concise construction documents. CSI provides continuing education, professional conferences and product shows. For more information, visit [www.csinet.org](http://www.csinet.org), or contact Erin M. Shannon, CSI at 585-232-8300.
